

SPELMAN DRAW

These results were based on having 52 quads in the draw (exception 2008 – 45 quads available). Several years it was possible that one or two of the quads were used for special needs housing or Dormitory Assistants and were taken out of the draw.

After draw times are posted, groups may drop out of the draw or simply do not choose a room at their draw time. Hence, it is possible for groups not among the top times to draw Spelman rooms.

Group rating formula can be found in the Spelman Draw section of the Room Draw Guide.

If a group applies and does not draw a Spelman room, the group must have put in an application for the **regular upperclass draw** in order to participate in that draw.

Spelman doubles are used for married housing and are not available in the Spelman Draw. Suites not used for married students will be available in the regular draw or will be held out for readmitted married students.

PAST SPELMAN DRAW RESULTS

2013 SPELMAN DRAW:

312 students applied in 69 groups (some groups had 8 members). 212 students drew.

<u>GROUP RATING</u>	<u># GROUPS APPLIED</u>	<u># GROUPS CHOSE ROOMS</u>
